**APPLICATION PACKET for
TENTATIVE MAPS**

This packet contains filing forms and instructions for submitting a complete application for a tentative map. You must complete all forms and submit all required supplemental documents or your application will not be accepted.

If your project is located within the Sphere of Influence of the City of Grass Valley, the City of Nevada City or the Town of Truckee, County General Plan Policy 1.39 requires that the City first determine whether or not it desires to annex the project. If the City determines that it does desire annexation, annexation must occur and your project will be processed by the City. If annexation is not desired, the County must be advised in order to process your application.

Applications must be filed in person in the Planning Department before 4:30 p.m. If all information is complete and no issues arise that require additional time for review, your project should go to hearing 84 days after filing the application. You will receive a Staff Report approximately 10 days prior to the hearing. That Report will contain a Staff Recommendation for the project including a list of recommended conditions of approval. **You or your authorized representative must attend the public hearing or no action will be taken.** Surrounding property owners will also be notified of the hearing. During the hearing, the approving body (either the Zoning Administrator or the Planning Commission) will consider the staff recommendation, your comments and any input from the public. The hearing body will either 1) approve your project, 2) approve it with conditions, 3) deny it, or 4) continue it for additional information if necessary. If you need specific information regarding the tentative map process, ask for a copy of the "Tentative Map Guidelines."

Immediately after filing your application, please post your property with the pink Planning sign so it is easily identifiable by the agency representatives that will be inspecting your site.

**SUBMITTING A COMPLETE AND ACCURATE APPLICATION AND SITE PLAN
WILL HELP TO MAINTAIN YOUR DESIRED HEARING SCHEDULE.**

Hazardous sites: General Plan policy requires the County pursue the cleanup of sites contaminated by mine waste or other hazardous materials prior to approving land use projects. Where hazardous waste or hazardous materials may occur on a project site, a Phase I site assessment may be required prior to processing or approving your project. Respond to the following questions and provide the requested information:

1. Is there evidence of any past, potentially hazardous use on or near the project site, including underground fuel storage tanks, dumpsites, artillery ranges, surface or subsurface mining activity?

- Yes** Provide a Memo from the County Dept. of Environmental Health that adequate information is on file to accept the project for processing.

Hazardous use. It is the applicant's responsibility to understand the definition of "hazardous material" and "hazardous waste," as defined in the California Health & Safety Code, Chapter 6.5. The storage of hazardous materials and the generation of hazardous waste are regulated under federal, state and county codes. The storage of hazardous materials in quantities equal to or greater than, a total weight of 500 pounds, or a total volume of 55 gallons, or 200 cubic feet at standard temperature and pressure for compressed gas; or the generating of hazardous wastes in any quantity, requires a permit from the Nevada County Department of Environmental Health.

2. Will hazardous materials be used, or will hazardous waste be generated from the facility resulting from this project? Check the appropriate response and provide the listed information.

- Yes** A Hazardous Materials Inventory Statement (HMIS), obtained from the Department of Environmental Health, must be filed with this project application.
