

Argument in Favor of Measure A

Vote YES on Measure A to preserve, improve and protect Nevada County Libraries. Measure A will collect $\frac{1}{4}$ of every penny of sales tax accumulated...only 25 cents in sales tax for every \$100 spent on taxable items in Nevada County. All Measure A funds will remain under local control and will be used exclusively to support Nevada County libraries. Nothing can be cut by the State or redirected for other purposes.

Vote YES on Measure A to continue the tax that voters have previously approved two times. The Library sales tax currently provides 65% of the Library budget. Without this important public support, hours would be reduced drastically, branches would be closed and popular programs and services would be eliminated.

Vote YES on Measure A to:

Enhance library hours of service

Improve services, programs and materials for children and teens

Improve access to technology for everyone

Continue oversight and reports by the independent Citizens' Oversight Committee

Nevada County residents have always loved their libraries. This past year Nevada County residents visited the library 346,962 times and checked out 678,793 items.

Our six libraries improve the quality of life in their communities by providing enrichment to people of all ages. The Library sales tax measures have been critical to maintaining hours, preventing closures and providing valuable programs to Nevada County since 1998. Vote YES on Measure A to renew this funding and protect our local libraries!
