RE: Use Permit U09-007
Rincon Del Rio

Permit applications must be submitted and approved under the Codes adopted by the County of Nevada in effect at the time of application prior to construction of any structure or grading.

The plans that have been submitted with this application have not been reviewed by the Building Department with regard to permit issuance. At the time of applications for building permits the applicant will be required to provide complete plans, including a site accessibility plan. The site accessibility plan will be required to show compliance with applicable sections of Chapter 11A and 11B of the California Building Code in effect at the time of permit application. Submitted plans should include sufficient information to determine elevation, slope, path of travel and building entrances. Sidewalks, signage, vehicular ways, ramps and curbs should also be shown. Van accessible parking should be located in all lots that provide access to building required to be accessible.
