Dear Ed,

After attending the meeting at the Hacienda drive community center where you cut off any questions on the Rincon del Rio project I felt that you were not serving the interest of your constituents other than the interest of the Young's. I am not alone in feeling this way.

We moved to this community because of its rural setting. If I had wanted to live in a metropolitan area I would have stayed in the Bay area where I lived on 1.25 acres in a relatively quiet setting.

Now, living on 10.5 acres, I am faced with a small city being built near us. On top of this to accomplish this, an amendment is being proposed to change the RA code so that this can happen anywhere in the county. I couldn't even move elsewhere in this county and feel protected. I feel that these zoning codes are there to protect citizens like us to feel that when we purchase in a rural area this is where we will live. I look at these codes when I purchase a home. With an amendment that serves only the Young's the whole feel of the county can potentially change. Anyone can get a senior development next to them. Ed I urge you to vote against such an amendment.

Sietske Rauwendaal
