I Tom Traynor son to Amy & Larry Traynor residents at LOP at the intersection of Timber Ridge and Rodeo Flat fully support Nancy Boltens and Glen Fuller's letter to you . . . this project would be a "death blow" to Me and my Mom who is 88 . . . I help them develop this property since 1973 and this project would be devastating to her and Me (Tom Traynor) as I plan on retiring here in a couple months to help my Mom out in the rest of here life . . . I am a cyclist myself and use these roads with other neighbors as recreation and quality of life excercise . . . Let My Voice Be Heard as a Protest To This Project
