Today's Game Plan

- Overview of COVID-19, the symptoms, and how it's spread
- Review how your exposure risk changes, based on the type of environment you're in
- Protecting yourself and voters
- What to do if you feel sick or test positive
- Additional guidance

3

What is COVID-19 (Coronavirus)?

- A virus related to other coronaviruses that cause the common cold but can cause severe health effects
- It is highly contagious, easily spread from person to person
- In less than a year, it has infected 6.7 million and has killed 200,000 people in the US alone

4

What is COVID-19 (Coronavirus)?

- Symptoms may include fever, cough, shortness of breath, headaches, chills, muscle aches, sore throat, fatigue, congestion, runny nose, loss of sense of taste or smell, nausea, vomiting, and/or diarrhea
- Some infected people show no symptoms (asymptomatic)
- Symptoms typically begin 2 - 14 days after exposure

5

What is COVID-19 (Coronavirus)?

- It is spread from person to person, mainly through respiratory droplets from someone who is infected
- It can spread to others from coughing, sneezing, singing, yelling, or from just talking
- It can also spread from contact with contaminated surfaces or objects

6

Risky Jobs and Work Environments

Very High Risk	High Risk	Medium Risk	Low Risk	Very Low Risk
- Healthcare workers caring for coronavirus patients - First responders transporting infected persons - Employees at facilities where no sanitization protocols are in place.	- Mortuary workers performing autopsies of infected persons - Work areas w/10+ employees and 6ft separation cannot be maintained - Employees performing tasks requiring close proximity w/other employees for more than 10 min/hr	- Employees working w/in 6ft of others several times a day w/out protective barriers - Employees working w/3-6 others providing personal services to healthy clients wearing a face covering - Jobs where tools are shared and sanitized between users	- Jobs where you can mostly stay at least 6 feet away from coworkers; only needing to briefly pass by them a few times a day - Crews outside on large jobsites where 6-foot separation is easily maintained. - Jobs where tools are not shared between employees.	- Working alone or outside where 6ft separation is always maintained 1-9 employees working inside buildings w/adequate ventilation - Jobs where tools aren't shared w/others - Jobs w/low or controlled interaction w/the public

7

Ways to protect yourself and voters

- You are required to wear a face mask, face shield, and gloves. These items, along with social distancing, reduces the risk of infection.
- Cover coughs and sneezes using a tissue or use your elbow. Use a fresh pair of gloves.
- Avoid touching the eyes, nose, or mouth. Change your gloves after using the restroom or eating.
- Stay home if you are sick and self-quarantine if you've been exposed to someone with coronavirus.

8

9

10

County Requirements

- Provide proper PPE for elections workers and offer items like face masks and sanitizer for in person voters
- Train all workers on specific protective measures and PPE required at the workplace Provide hand-washing facilities and sanitation supplies. (i.e., disinfecting wipes, hand sanitizers, disinfecting sprays)
- Set up physical distancing measures (i.e., post signs, floor markings)
- Send home sick workers (i.e., take temperature, health screen)
- Install barriers between workers where feasible and control the flow of traffic.

Symptoms Prevention Treatments

☒ Take a self-assessment

COVID-19 affects different people in different ways. Infected people have had a wide range of symptoms reported – from mild symptoms to severe illness.

Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Look for emergency warning signs for COVID-19. If someone is showing any of these signs, seek emergency medical care immediately:

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion
- Inability to wake or stay awake

What do you do if you feel sick?

- If you believe you have the coronavirus, stay home and call your healthcare provider.
- Let the Elections Office know that you can no longer serve.
- If you have been infected, you may not have had symptoms for several days but may have passed the infection onto co-workers.

13

If you test positive for COVID-19

- Your healthcare provider will advise you on procedures to follow.
- Immediately let the Elections Office know as so we can take appropriate action, i.e., cleaning and disinfecting the site, notifying co-workers that may have been exposed.
- The Elections Office will consult with Public Health and may have to replace the entire vote center team or shut down the site.
- Please note that this information is kept **confidential**.
