

**Do you
have your
GO BAG
ready?**

**Fill out this
checklist to see
how prepared
you are!**

At Office of Emergency Services (OES) we say, "Being 'Ready Nevada County' means being ready for anything!". COVID-19 has made that even more true for teens. With schedules changing constantly and distance learning in the works, it is important that you are just as prepared for an emergency as adults.

We know that talking through preparedness is an important first step in making a plan. So take a look at our official "Go Bag" and preparedness checklist at <https://bit.ly/3d2NYRJ> and let us know what we're missing, what you're worried about, and how we can help you be #ReadyNevadaCounty.
