Course Summary:

Blood and other potentially infectious materials pose a serious threat to employees who are exposed to these materials. To reduce the health risk to workers whose duties involve exposure to blood or other potentially infectious materials, OSHA issued the Bloodborne Pathogens (BBP) Standard (29 CFR 1910.1030) on December 6, 1991 (56 FR 64004). This course explains the requirements for complying with this standard as well as provides practical information on the various diseases and protection strategies associated with bloodborne pathogens.
