

## Appendix A. Data Map

### NEVADA COUNTY MASTER PLAN FOR AGING & DISABILITY

## Data Map

This Data Map is a tool to understand aging and disabilities landscape in Nevada County based on the California Master Plan for Aging’s 5 Bold Goals for 2030: 1) Housing for all Ages and Stages; 2) Health Reimagined; 3) Inclusion and Equity, not Isolation; 4) Caregiving that Works; and 5) Affordable Aging. It is made up of available data from local, state, and online sources (sources cited below). The goals of the Data Map are to assist the county in identifying strategic priorities, assessing the need for additional data collection, and establishing benchmarks for improving aging and disability needs in the county.

### Community Demographic Data

Indicators	Nevada County Data	Source	California Data	Source
<b>Population</b>	– 99,417	US Census, Population 60 Years and Over in the United States (Geos Filters: Nevada County; California), American Community Survey (ACS)	– 39,346,023	US Census, Population 60 Years and Over in the United States (Geos Filters: Nevada County; California), American Community Survey
– <b>Total</b>	– 36,536 (36.75%)		– 7,898,685 (20.01%)	
– <b>Older adults (aged 60+) (percent of total population)</b>	○ 47.2%		○ 45.6%	
▪ <b>Percentage Male</b>	○ 52.8%		○ 54.4%

## Goal 1: Housing for all Ages and Stages

We will live where we choose as we age, in communities that are age-, disability-, and dementia-friendly and climate- and disaster-ready.
