### Mail Team 6

It is crucial to prevent the introduction of illicit items into correctional facilities to maintain a safe environment for everyone involved. The collaborative efforts of the mail teams and the K9 unit play a vital role in intercepting and identifying prohibited substances, ultimately protecting the well-being of inmates and staff members. This course will give you a better understanding of the role of K-9s, pre-cursory searches, and the MX908 machine when detecting illegal drugs in incoming mail. You will be able to identify different types of illegal drugs such as Suboxone, Fentanyl, Methamphetamine, Cocaine, Xylazine, ANPP, 4-CMC, and Heroin. In addition, you will be able to analyze the significance of preventing drug introduction into correctional facilities.
