EMOTIONAL INTELLIGENCE FOR PUBLIC SAFETY

Emotional Intelligence is the ability to understand and control your own emotions and recognize and influence the emotions of others. **THESE SKILLS ARE ESSENTIAL FOR ANYONE WHO SERVES IN PUBLIC SAFETY.**

Public safety employees are in the people business and they need training on dealing with people. EQ is the answer! This EQ workshop will focus on 5 core competencies; self-perception, self-expression, interpersonal, decision making, and stress management. Armed with this knowledge, participants will gain greater understanding of their emotions and how those emotions can impact their professional and personal lives.
