

## The 2025 Women's Leadership Symposium

In honor of Women's History Month and the San Francisco Sheriff's Office's (SFSO) participation in the 30x30 Initiative and its commitment to the San Francisco Junior Deputy Program (SFJDP), SFSO and SFJDP are hosting its 3rd Annual Women's Leadership Symposium entitled, "Women in Public Service: Representation Matters." SFJDP is a nonprofit organization that focuses on mentoring young people ages 7-18, while providing them leadership and communication skills. This year long program empowers lives and builds futures, and encourages future leaders exploring a career in public service. This unique symposium brings together global leaders from diverse fields to collaborate and explore women-focused issues related to equipping women leaders to effect positive change. The San Francisco Sheriff's Office is committed to increasing the recruitment, retention, and promotion of women in law enforcement and supports the success of women in all aspects of public service. The objective is to inspire future leaders and provide attendees insight into being a woman leader in a career devoted to public service.
