Introduction

The Nevada County Board of Supervisors, County Executive Office, and senior executives develop this Legislative Platform on an annual basis in order to prioritize and draw attention to legislative areas of interest to the County as a whole, as well as specific program or specific legislative efforts that effect the County's ability to deliver the best possible services to our residents.

The County Executive Office leads the effort to identify and assess the priorities, funding requests and initiatives described here by engaging the senior executive team, our contracted and organization-based legislative advocates, as well as the Board of Supervisors at their annual workshop, where the Board of Supervisors sets the Board Objectives for each year. Input is also solicited from the appointed and elected department heads regarding program specific issues as well as alignment with county planning documents such as the Capitol Facilities Plan, Health and Human Services Strategic Plan, etc.

This document is shared with our contracted legislative advocacy firm, Shaw Yoder Antwih, Inc. as well as the public on the County's website. It is used throughout the year by the Board of Supervisors, County Executive Office and Department Heads to assess legislative issues as they arise and determine if advocacy on a particular issue is in alignment with the County's Legislative Platform.
