Evacuation Zone Map Packet

version: Oct. 2023

This map packet is designed to answer **two questions** when you hear emergency notifications about **Evacuation Zones** being activated in Nevada County:

- Is my **Home Zone** or other **Zones** I'm watching one of the activated **Evacuation Zones**?
- Where are the activated **Evacuation Zones** compared to my **Home Zone** or **Zones** I'm watching?

For this map packet to help you answer those questions in a crisis, you must first complete two simple steps to prepare it:

1. Print this map packet out complete with instructions
    - If you do not have access to a printer, have you or a trusted friend go to a Nevada County Library to pick up a packet or print one out for you.

2. Mark on the maps where your Home Zone is and any other Zones that you're watching
    - To do this you will need access to the internet and go to **Genasys Protect** by either:

Scanning this QR code using a QR code reader app or camera on your smartphone:	-OR-	Typing this web address into your web browser:
		https:// protect.genasys.com

- In the **Genasys Protect app** use the "Search" feature to enter addresses to find your **Home Zone** and other **Zones** you're watching.
- In this printed out **Map Packet,** locate the **Zones** and highlight or mark them on the map.
- You can use the **Zone Index** on the next page to help locate the correct **Map Number** and **Reference Grid** which tells you which quadrant to look in:

Share this Map Packet or get Poster

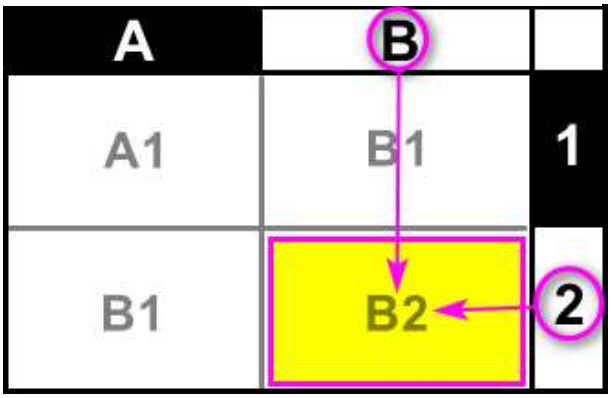
https://ReadyNevadaCounty.org/EvacZoneMaps

https://ReadyNevadaCounty.org/EvacZonePoster

EVAC ZONE PACKET

EVAC ZONE POSTER

Each Map has a Reference Grid – Example below is [B,2]



Now, store your marked up **Map Packet** in a convenient location. When you hear **Evacuation Zones** listed in an emergency notification, look those **Zones** up to see if they are near the **Zones** you are watching.

Zone Index
